

STUDENT HEALTH SERVICES AND REQUIREMENTS – PROCEDURES

Procedures for Emergency at School

School personnel shall give only emergency care to students who become ill or injured on school property, buses, or while under school supervision.

Each year parents shall supply information indicating where the student is to be taken in case of an emergency; the name, address, and phone number of a neighbor to be contacted in case the parent/guardian is not available; and any allergies or diseases the student might have.

The Districts shall maintain an Emergency Procedures Handbook, which shall be utilized by District personnel for handling emergencies. Emergency procedures shall include the following:

- Provision for care beyond First Aid, which would enable care by the family or its physician or the Paramedic Assistance Unit of the Fire Department. In instances when the Paramedic Assistance Unit is required, every effort shall be made to provide the unit with the student's Emergency Card which lists any allergies or diseases the student might have;
- Information relative to not permitting the administration of any form of medicine or drugs to students without written approval of parents. Requests made by parents for such administration of medication shall be reviewed and approved by the school nurse;
- Provisions for recording all accidents, cases of injury, or illness. Provisions shall be made (in all cases of injury or illness involving possible legal or public relations implications) for reporting such to the appropriate administrator immediately;
- Prompt reporting by teachers to the Principal or designee any accident or serious illness and such reports will be filed with the Business Office.

Student Illness or Injury

In case of illness or injury, the parent or guardian will be contacted.

Transportation of an ill or injured student is not normally to be provided by the school. If the parent cannot provide transportation and the student is ill or injured, an ambulance may be called. Expense incurred as a result of emergency ambulance use will not be borne by the District.

Transportation of a student by school personnel will be done only in an emergency and by the individual so designated by the school administrator.
